Chip, Eric,

Please see below and attached.

thanks
valerie

Subject: Proposed subsurface sediment to surface sediment loading approach

Valerie- please forward to EPA. thanks, Keith

Eric and Chip,
The LWG's proposed approach for analyzing potential advective loading from subsurface sediment to surface sediment is attached for your review. We intend to present the results from this evaluation in the draft RI report and use the developed loading values as external load inputs to the surface sediment layer in the Abiotic Fate & Transport Model.
Cheers, Keith

Keith Pine
